AI for Chambers (May) Session

11:00 AM - 12:00 PM EST

This is a quarterly AI FOR CHAMBER SERIES that CPO is offering with our CE partners in state across the country. Thanks to our friends at the Michigan Chamber for setting up registration. This is a FREE session to CPO members.

DATES:

Wed, Feb 4, 2026 11:00 AM - 12:00 PM EST

Tue, May 19, 2026 11:00 AM - 12:00 PM EDT

Fri, Sep 18, 2026 11:00 AM - 12:00 PM EDT

Tue, Nov 17, 2026 11:00 AM - 12:00 PM EST

To help chambers stay ahead of rapid changes in AI – without overwhelming staff or members – we’ve partnered with Momentum AI to launch a Virtual AI Training Series. These will be quarterly sessions, allows the content and interactions to build over time, moving well beyond “AI basics” and toward real, practical capability.

Each session is 60 minutes total:

45 minutes of guided training

15 minutes of live Q&A

Every session follows a consistent, focused structure:

What’s New in AI (for Chambers) Momentum AI’s plain-English update on what’s new that actually matters to chamber professionals – no hype, no jargon.

Prompts & Tools for Real-World Results Practical examples chambers can use immediately for communications, operations, member engagement, and strategy.

Chambers & Thought Leadership How chambers can position themselves as informed, forward-thinking leaders in their communities.

Live Q&A Open discussion focused on real challenges chambers are facing right now.

The goal isn’t to turn chamber staff into technologists. It’s to help them use AI confidently, responsibly, and strategically – and to do so in a way that grows in sophistication across the year.

September 18, 2026

AI for Chambers (September) Session
